Ithaca, NY · May 2002

PROFESSIONAL EXPERIENCE

Coder Foundry, Web Software Engineer

Kernersville, NC · May 2017–September 2017

- Created a personal portfolio and blog website using C#, MVC5 and JavaScript.
- Created a fully functional MVC bug tracker web application, from scratch, implementing enhanced security and file uploading features.
- Created a fully functional financial portal web application using .NET MVC framework. Composed dynamic front-end design using partial views and AJAX.
- Created a fully functioning mobile vehicle information application using Xamarin. Accessed NHTSA's car recalls database using WebAPI2. Included images using Bing's Cognitive Image Search API. Built RESTful APIs and utilized Azure App Services.

Equashield, Inside Sales Representative

Port Washington, NY · June 2016–March 2017

- Actively prospected and engaged with hospital directors and executives to market multi-million dollar cancer treatment solutions that protected healthcare professionals from chemotherapy exposure.
- Utilized multiple software platforms simultaneously for lead generation, CRM and prospect engagement for national market.

Flok - Get Rewarded, Account Executive

New York, NY · January 2016–May 2016

- Built an international pipeline of small business owners looking to establish consumer incentives to increase their revenue.

Justworks, Account Executive

New York, NY · March 2015–December 2015

- Actively researched new companies & emerging markets to develop new client relationships via cold to warm emails & calls.
- Evangelized mission driven startup culture & SAAS offerings at networking events as a human resources subject matter expert.
- Over 190% beyond goal October 2015.
